(210) 862-0768 | jingsi.zhou@utexas.edu | www.linkedin.com/in/jingsi-zhou

Education

Bachelor of Science, Mechanical Engineering

August 2019 – May 2023

- The University of Texas at Austin
- Minor in Computer Science (Certificate in Elements of Computing)
- Overall GPA: 3.89/4.00   Major GPA: 3.92/4.00

Work Experience

Embedded Software Development Intern, Amazon Project Kuiper

May 2022 – August 2022

- Designed, developed, and wrote documentation for a solar array firmware testing script.
- Bug fixed solar array firmware code (written in Rust).
- Collaborated with mechanical and electrical engineering teams for hardware-related issues and testing.
- Contributed project updates and goal setting during tri-weekly scrum meetings and biweekly sprint planning, respectively.

Projects

Full Stack Developer, StonkR

January 2023 – April 2023

- Collaborated with team of five to bring a website, designed to track stocks in a minimalistic way, to life through the SDLC.
- Used React.js to create responsive webpages, PostgreSQL for data storage and relationships, Python for backend data retrieval, and deployed using Google Cloud Platform (GCP)
- Documented and tested an internal API, allowing external users to gather data from the website using Postman.

iOS Developer, UT Racoons

August 2022 – December 2022

- Developed an iOS Application in XCode using Swift and SwiftUI where users can create an account, login, and create location-specific posts that document free things around college campus. Google Firebase was used to store user data and associated post data.
- Performed tests to validate Swift functions, utilized Swift queues to ensure data is properly manipulated and updated.

Skills

- Proficient in: Python, Flask, MATLAB, HTML, CSS, JavaScript, Agile Methodology, Linux, Git, Jira/Confluence, Swift, Node.js, React.js, Bootstrap, PostgreSQL, Postman, Google Firebase, Google Cloud Platform (GCP)
- Software: Microsoft Office, SolidWorks, Fusion 360
